

CURRICULUM VITAE

RICHARD GINNOW, PRINCIPAL CONSULTANT

Richard Ginnow is a principal consultant with broad experience in business and IT related environments gathered over more than 20 years. With outstanding abilities in Project and Change Management, Business and Technical Analysis, it is his intention to continue bringing success to enterprises by enabling and improving their governance and IT.

As a fast learning professional, he is very capable of quickly getting up to speed in international, multi-cultural and multi-technological environments. He has a great affinity to the efficient structuring of processes based upon business needs and strategic inputs.

ADDED VALUE FOR YOUR PROJECT

- Management of very large international, multi-cultural projects
- In-depth knowledge of project management methodologies and their practical usage
- Excellent knowledge of Change Management and Post Merger Integration

Richard was born in 1970 and resides in Mettmensstetten.

ADP Analyse Design Planung

We make projects. Across all borders and cultures. We deliver your innovation, bringing your change to your organisation. Everywhere necessary. Internally and externally.

ADP values excellent project methodology, since 1999. Our consultants augment this with significant experience, professional and individual.

We connect your team members and communicate at all levels, with passion and dedication.

Inquisitive? More? Visit us or our own project methodology at adpag.ch or probox.biz.

- May 12 - SENIOR PROJECT MANAGER BANK-now/Credit Suisse, Horgen/Zurich
- Apr 13
1 year Management of multiple IT projects for BANK-now, owned by Credit Suisse (CS). CS is the exclusive IT provider (platform & services) for BANK-now. This included:
- Project 'AR5.1 HWMOVE': Due to audit and security findings, the whole IT platform had to be moved into a secure CS environment. Responsible for the move of approx. 70 servers, 40 services and 9 DBs, incl. coordination of internal and external vendors (e.g. TIS, Citrix, CIC). Project size: 400 kCHF, 400 person days.
 - Project 'AR6.0 DISPO Plus': Introduction of the product "Dispo mit Karte" in cooperation with Credit Card Issuer (Swisscard) and application vendor (CIC). Analysis and design of automated business processes for the exchange of master and transaction data. Realisation of additional Change Request with CS. Project size: 2 mCHF, 2'000 person days.
- Mar 11 - SENIOR PROJECT MANAGER Swisscard, Horgen
- Mar 12
1 year,
1 month Management of multiple projects at major Swiss Credit Card issuer, owned by Credit Suisse and American Express. The engagement included:
- Project 'COSy': Implementation of a Consumer Online System (COSy) for cardholders. The System enables the display of products, transactions, statements and customer self-service on an internet platform. Definition of architecture in a heterogeneous environment (CRM, ECM, BPM, ODS, DWH, OCE, D/CMS etc.), requirements analysis and solution design, preparing the solution build and testing. Coordination of several vendors. Project size: 5 mCHF, 1'500 person days.
 - Project 'M&M': Introduction of a new product for MasterCard PayPass and Swiss Miles & More (M&M) and technology (Contactless Credit Card) into the Swiss market. Coordination of several vendors (e.g. TSYS, MasterCard, Trüb).
 - Project 'Securo': Technical coordination for the implementation of a securities lending strategy in collaboration with Credit Suisse.
 - Other: Consulting and implementation of IT Project Management, iterative strategies and methods. For example: established and designed architectural and component solutions in UML on Enterprise Architect; implemented project governance and related ITIL processes; and set up MS Project Server to support the implementation of Jira.
- Jun 10 - CUTOVER DIRECTOR Bank Coop/Basler Kantonalbank, Basel
- Jan 11
8 months Supporting the critical phase of the implementation (cutover) of a core banking platform (Avaloq). Planning, preparing and directing the cutover e.g.
- Structuring and preparing the Sequential Operating Diagram, a precise schedule of individual activities, considering their dependencies throughout the organisation.
 - Defining and preparing the organisational structure & operations for the cutover.
 - Assuring concern-wide communication during the cutover, regardless of medium: SMS, email, Intranet, meetings etc.
 - Planning emergency procedures and scenarios for rollback and for fall-back.
 - Managing all 600 cutover activities as performed by both internal and external resources. Comprised of a two-phased approach on a 24/7 basis.

- May 10 - PROJECT MANAGER CSS Insurance, Lucerne
- Apr 09
